

IN THE SPECIFICATION:

Please replace the paragraph on page 13, from lines 15-20, with the following rewritten paragraph:

A<sup>1</sup> --Figure 8 is a detailed block diagram showing the internal construction of computer system 701. As shown in Figure 8, the computer system 701 comprises a central processing unit CPU 712 that interfaces with a computer bus 714. Also interfacing with the computer bus 714 is a scanner interface 715, a printer interface 716, a network interface 717, a facsimile/modem interface 719, a display interface 720, a main random access memory RAM 721, a disk 706, a keyboard interface 722 and a mouse interface 724.--

REMARKS

Applicant respectfully asks for reconsideration of this application and of the Office Action dated May 22, 2002.

In the Office Action, the Examiner first objected to the drawings for omitting reference numbers identified in the specification. Applicants respectfully traverse this objection, and request its reconsideration. A Proposed Drawing Change Transmittal, along with proposed changes for Figures 1, 3, and 8, is being concurrently submitted. These proposed drawing changes address each of the informalities noted by the Examiner. It is therefore courteously requested that the proposed drawing changes be approved, and that the outstanding objection to the drawings be withdrawn.

Next, the Examiner objected to the specification for a typographical error on page 13.
